[L.S.]

D. C. LAM
Lieutenant Governor

CANADA:
PROVINCE OF BRITISH COLUMBIA

ELIZABETH THE SECOND, by the Grace of God, of the United Kingdom, Canada and Her Other Realms and Territories,
QUEEN, Head of the Commonwealth, Defender of the Faith

*To Our Faithful Members Elected to Serve in the Legislative Assembly of Our Province of British Columbia, at Our City of
Victoria — GREETING*

A PROCLAMATION

WHEREAS We are desirous and resolved, as soon as may be to meet Our People of Our Province of British Columbia, and to have their advice in Our Legislature;

NOW KNOW YE, that for divers causes and considerations and taking into consideration the ease and convenience of Our Loving subjects, We have thought fit to hereby convoke, and by these presents enjoin you, and each of you, that on Thursday, the eighteenth day of March, one thousand nine hundred and ninety-three at two o'clock in the afternoon, you meet Us in Our said Legislature or Parliament, of Our said Province, at Our City of Victoria, FOR THE DISPATCH OF BUSINESS, to treat, do, act, and conclude upon those things which, in Our Legislature of the Province of British Columbia, by the Common Council of Our said Province may, by the favour of God, be ordained.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent and the Great Seal of Our Province to be hereunto affixed.

WITNESS, the Honourable DAVID C. LAM, Lieutenant Governor of Our Province of British Columbia, in Our City of Victoria, in Our Province, this twenty-fourth day of February, in the year of our Lord one thousand nine hundred and ninety-three, and in the forty-second year of Our Reign.

By Command.

JOURNALS
OF THE LEGISLATIVE ASSEMBLY
OF THE PROVINCE OF BRITISH COLUMBIA

SESSION 1993

Thursday, March 18, 1993

TWO O'CLOCK P.M.

Prayers by Mr. *Barnes*.

This being the first day of the second meeting of the Thirty-fifth Parliament of the Province of British Columbia for the dispatch of business, pursuant to a Proclamation of the Honourable DAVID C. LAM, Lieutenant Governor of the Province, dated the 24th day of February 1993, the members took their seats.

The Honourable DAVID C. LAM, Lieutenant Governor of the Province, having entered the House, took his seat on the Throne, and was pleased to deliver the following gracious Speech:

Honourable Speaker, Members of the Legislative Assembly, Ladies and Gentlemen:

In opening the Second Session of the Thirty-fifth Parliament, I extend greetings on behalf of Her Majesty the Queen. I pray that all Members of this Assembly will strive to keep the needs and well-being of all citizens of the Province uppermost in their thoughts and deliberations.

Since the Assembly last met, we have been saddened by the passing of former Governor General Jeanne Sauve, B.C.'s most distinguished journalist Bruce Hutchinson, and Dr. Peter Jepson-Young, who heightened our awareness of the devastating effects of AIDS.

Also, we have been saddened by the passing of five former Members of this Legislature. Harold Winch represented Vancouver East for 23 years, Dan Campbell represented Comox for 16 years, David Brousson represented North Vancouver-Capilano for 5 years, Frank Ney represented Nanaimo for 3 years, and Doug Mowat represented Vancouver-Little Mountain for 8 years.

Our Province has welcomed numerous distinguished guests during the past year. His Royal Highness, Prince Edward, visited Victoria to be briefed on the Fifteenth Commonwealth Games to be held in our capital in August of 1994.

Other visitors included the Right Honourable Christopher Patton, Governor of Hong Kong, and His Excellency Lee Kuan Yew, Senior Minister of Singapore.

We look forward to the visit of Presidents Clinton and Yeltsin in early April. As host to these distinguished world leaders, British Columbia is honoured to serve as a bridge of peace and prosperity between nations.

This year the Province will commemorate the Alexander Mackenzie Sea to Sea Bicentennial: the 150th anniversary of Victoria becoming our capital; and the 100th anniversary of the laying of the cornerstone for these Parliament Buildings.

British Columbia will also host the Canada Summer Games as Kamloops proudly welcomes 4,200 young athletes, including athletes with disabilities, from across our nation.

Honourable Speaker and Honourable Members... the past sixteen months has been a period of transition and a test of our resolve. Elected with a mandate to lead British Columbia in a new direction, this government has implemented much needed reforms and created new initiatives to make Victoria more efficient and responsive.

In British Columbia today, people are raising profound questions concerning government's role in shaping our future. The public feels most governments are too often indifferent to the needs of the average citizen.

There is a commonly held belief that fundamental change is essential if we are to solve the problems we face today. This government has heard the chorus of voices demanding change... and during the past sixteen months has answered the call.

First and foremost, this government is making the difficult decisions necessary to control spending growth and cap the deficit.

At the same time, with a carefully balanced and fiscally responsible approach to the budgetary process, this government has reaffirmed its commitment to vital services, especially health care and education.

In addition, steps have been taken to make government more open and inclusive, and hold elected officials to the highest ethical standards.

But, this government has only just begun.

To meet the challenges of the 21st Century, this government will face tough choices — and is ready to make the tough decisions.

To build a stronger, fairer British Columbia, change, although never easy, will be necessary. Those with partisan or self interests who oppose change will have to rise above their narrow positions, or they will be left behind.

What the Premier, his Cabinet and Caucus commit to is nothing less than redefining government in British Columbia. Government that is innovative, independent and effective. And above all, government with the courage to make the changes needed to build a British Columbia we are proud to leave our children.

The challenges we face should surprise no British Columbian.

They touch each and every one of us, and challenge our ability to build a stronger, fairer economy.

The challenges are:

First, to renew Medicare to meet our changing needs. Our health care system keeps getting bigger, more institutional, more expensive, more centralized and more remote. It's time to steer the system in a new and positive direction.

Second, to build our economy for the long term. This government will lead a coordinated effort to build British Columbia by investing in people and in our regions.

Third, to resolve our land conflicts. It's time for British Columbians to finally come to terms with disputes over our forests and lands.

First, Medicare, basic to our sustenance and success.

The Royal Commission on Health Care and Costs concluded that not all British Columbians are equally healthy nor do we all have reasonable access to health care.

Our population is changing — becoming more diverse and complex. Medicare hasn't kept up.

Across Canada, Medicare is under severe financial pressure. In British Columbia, health care costs have increased over 50 per cent in the past five years. Today the government spends one in three of our tax dollars on Medicare. This severely limits tax dollars needed in other critical programs like education and child care.

But unlike other provinces, this government will not consider a two-tiered health system and user fees as solutions to this problem. As the Royal Commission firmly said, there is enough money in health care already, if only we manage better and spend more carefully.

We must have the courage to take up the Commission's challenge.

This government is phasing out the Shaughnessy Hospital because there are surplus hospital beds in Vancouver and not enough in the rapidly-growing suburbs.

Shaughnessy's acute spinal cord injury unit will be enhanced and moved to the Vancouver General Hospital. The Women's Health Centre will be improved and continue to provide its unique services at the current site.

At the same time, Vancouver hospitals, including British Columbia's Children's Hospital, will be made even better by shifting priorities.

Hospitals and highly-trained health professionals are at the heart of the service Medicare provides to British Columbians. This government won't let that change. But, this government will meet our changing health needs and ensure that quality care is available closer to home.

Too often — as a patient or as a taxpayer — the average citizen is the last to be listened to when decisions are being made by the experts and professionals about health care. That is wrong.

This government will move forward this Session with a Provincial Health Council Act and a Regional Health Delivery Act to shift more health care decisions from Victoria to local communities.

With the public helping shape our common future at the community level, our Province can lead the way in new emphasis on prevention; eliminating waste, inefficiency and duplication; and meeting the changing needs of women, seniors and our children.

We face many new challenges in the months ahead, including:

Helping care providers make an orderly transition to other health care priorities and positions;

Establishing community health centres to bring a wide range of care for families and seniors closer to home; and

Putting a new focus on women's health issues including expanding help with high risk pregnancies and mammography screening in many communities across B.C.

As was said earlier, change is never easy, but this government believes it is imperative British Columbia lead the way to protect and renew Medicare, our proudest Canadian achievement.

Second, we face the challenge of building our economy for the long term.

Our tax dollars build bridges, highways and ferries, renew forests, and construct schools and hospitals. That's building British Columbia, and it means new jobs.

But that's not enough.

Provincial government spending accounts for 20 per cent of B.C.'s economic activity. This government is committed to getting greater value and new benefits for these tax dollars: in training for people and for the economic revitalization of our regions.

This government will introduce through the Budget and legislation in this Session, a new initiative of strategic investments in people, our regions and key sectors to begin immediately and expand over the long-term.

With forward-looking and innovative leadership, British Columbia can show the way for Canada in the expansion and diversification of our private sector economy for the 21st Century.

The Premier continues to strengthen relations with our trading partners, particularly in the Pacific Rim and Europe, to attract clean, high-wage investment in our economy and expand markets and find new ones for our own products.

We must move in partnership to create new training opportunities for our current workforce and prepare our workers for tomorrow. The Premier will convene a Summit on Skills Development and Training June 23rd to 25th at BCIT, bringing together leaders from business, labour, education and training to focus on the vital issue of giving workers the tools they need to compete successfully in a global economy.

Third, we face the challenge of resolving our land conflicts.

To move into a new era and prepare for the economic challenges of the 21st Century, this government will lead British Columbians forward to peacefully settle our Province's land disputes.

This will not come without some pain. But we must remember there is no progress if we cling to the status quo, and no economic certainty if we dare not risk change.

Development of our natural resources has been both a vital part of our economy and a major source of controversy. The Commission on Resources and Environment established last year has begun the difficult task of building a regional consensus on future land use. CORE demonstrates this government's resolve to challenge British Columbians to seek solutions that balance our long-term economic, environmental and social values.

To support this important work, the government will soon announce its comprehensive Protected Areas Strategy and work towards a B.C. Forest Practices Code for better stewardship of our forests into the next century.

British Columbia will take another historic step this Session. This government will introduce the Treaty Commission Act to enable the negotiation of modern treaties with Aboriginal peoples to proceed. Fair and just settlements with First Nations will not only provide greater economic certainty but, more importantly, mean new economic opportunities for Aboriginal and non-Aboriginal peoples.

This government has moved to formalize our responsibility to represent third party interests at the negotiating table and to establish a cost-sharing arrangement with the federal government which is fair to B.C. taxpayers.

For too long, British Columbia has been without clear rules for reviewing the environmental impact of major developments on our land, waters and air. This has caused concern and uncertainty with both investors and the environmental community alike. The government listened to people last year and this Session is taking action by introducing a new Environmental Assessment Act.

New legislation ensuring polluters clean up contaminated sites will also be introduced this Session. And in the coming weeks the government will be issuing British Columbia's first-ever State of the Environment Report to provide a benchmark to measure our Province's environmental progress.

Just as the government faces these challenges of building a stronger, fairer British Columbia, it has begun to tackle the tough fiscal problems and manage government better. In this new era, it is not just how much government will spend, but where we spend and how smartly we spend.

This government has already begun to rein in a budget that had grown out of control. The tough measures needed to accomplish this involved shared sacrifice and began with government itself. The government cut spending growth from 12 to less than 7 per cent this past year and has kept its spending on target.

The salaries of MLAs were frozen while Cabinet's were cut, and unnecessary bureaucratic positions are being eliminated. Earlier this month, some progress from these efforts came in statistics showing a decline in the projected deficit.

The reality of deficits for eight of the last ten years in British Columbia requires us to seek responsible, balanced measures to control spending, reduce waste, and shift resources to higher priority areas. This all must be done while ensuring fairness in the distribution of sacrifice and by asking people, particularly those most able to pay, to contribute their fair share.

However, controlling our finances does not mean irresponsibly eliminating vital services. It simply means managing taxpayer's dollars more efficiently. The final report of the Korbin Commission will be released this spring.

Although this government has already begun to act on some interim recommendations to improve efficiency and eliminate waste, more action will be taken on the final report to make government accountable at every level. One area where we will seek to meet this goal involves public sector activities which are virtually autonomous from the provincial government. About half of all provincial government dollars go to municipalities and hospital, university, college, and school boards who make their own budget decisions.

With the same goal, this government will pursue reforms in the areas of police and public safety, municipal legislation and municipal grant distribution to improve service and efficiency. These reforms are the product of extensive public consultation.

The government will continue to challenge itself to better respond to changing economic needs. The Ministry of Economic Development, Small Business and Trade has been reorganized, with a reduction in middle management and a sharpened focus on development of B.C.'s regions. New regional development officers will work in 22 areas assisting local communities to adjust to change, identify their priorities and promote their unique economic opportunities.

The new British Columbia Investment Office, reporting to the Premier, will work to cut unnecessary red tape and duplication within the normal regulatory and review processes. A high-tech link between government and its suppliers of goods and services will be established. B.C. Buy Smart will ensure more efficiency, faster payment and increased use of local suppliers by regional offices.

Changing needs and a changing society also dictate this government introduce a new Family and Community Services Act to provide greater support for families in crisis. This government will, as well, increase its support to emergency shelters and transition housing for women and children who are the victims of family violence, expand services for women in their communities, and expand the number and quality of child care spaces.

Additional legislative changes proposed this Session ensure equity in the areas of adult guardianship, multiculturalism and human rights. Legislation will be amended to extend further protection to consumers and tenants.

To further establish public trust in government agencies charged by law to make independent and binding decisions, legislation will be introduced to abolish ALR appeals directly to Cabinet.

No effort undertaken by this government will be more important than our effort to make it more open and accessible to the people we serve. While our new and extensive Freedom of Information Act officially comes into force this fall, this government has acted in its spirit since its adoption and this Session will offer proposals to implement and extend its provisions to the local level.

To ensure public access to accomplish these goals, the men and women of this Assembly must work together in good faith. As public servants, we must stand firm in the face of criticism, resist entrenched interests, and dedicate ourselves to the future of our Province.

As leaders of British Columbia, let us draw inspiration from those who have gone before us.

Thirty years ago, W. A. C. Bennett built roads and dams. And twenty years ago, Dave Barrett protected our agricultural lands for future generations. These British Columbians, along with countless others who have built this Province from its beginning, all have one quality in common, they had the courage to change.

Do we dare follow in their footsteps, or will we cling to the status quo? Do we have the courage to renew Medicare? Do we have the courage to peacefully resolve our land disputes?

Do we have the courage and imagination and commitment to lead this Province into the Twenty-first Century, and build a British Columbia we are proud to leave to our children?

Wednesday, March 24, 1993

TWO O’CLOCK P.M.

Prayers by Mr. *Weisgerber*.

The Speaker delivered her reserved decision as follows:

Honourable Members:

On Friday, March 19, the Honourable Member for West Vancouver-Garibaldi rose on a matter of privilege of which he had given notice to the Chair pursuant to Practice Recommendation #7. In the exceptional circumstances of this matter, I am sure it would be the will of the House to deem this matter to have been raised at the earliest opportunity.

The events giving rise to the matter of privilege occurred on the Opening Day of the present Session, being March 18, 1993. Briefly, the events were as follows:

After His Honour the Lieutenant Governor had taken his place in the Chamber, and was in the course of making opening remarks, the proceedings were disrupted by excessive noise of a group of protesters immediately outside the doors of the Chamber. The protesters eventually burst through the Chamber doors. Sergeant-at-Arms staff managed to prevent their further entry into the Chamber by forcibly closing the Chamber doors. The protesters continued their assault on the Chamber doors, causing physical damage and interfering with proceedings in the House, making it impossible for the Speech from the Throne to be delivered to the assembled Members.

The disruption continued without abatement for a period in excess of one hour, preventing His Honour the Lieutenant Governor from advising the Members, in the traditional way, of the reasons Parliament had been summoned. Proceedings were resumed approximately 1-1/2 hours after the original interruption.

While the Honourable Member for West Vancouver-Garibaldi did not present the Chair with the factual detail of the events which I have outlined, I believe it to be common knowledge that the events described do accurately reflect the complaint which is the foundation for the Member's matter of privilege.

The privileges this Assembly enjoy are historic and are in part defined in the *Legislative Assembly Privilege Act*. Section 5 of that Act defines as a breach of privilege or as a contempt, actions which obstruct, threaten or attempt to force or intimidate Members of the Assembly.

The Chair has examined numerous authorities on this matter and refers Honourable Members to Sir Erskine May's *Parliamentary Practice*, 18th edition, at page 132. Several instances of disorderly conduct on the part of strangers are listed which the House has punished as contempt.

It is not the Speaker's function to decide the matter of substance as to whether or not a breach of privilege has in fact been committed, as that question can only be decided by the House itself. The Chair, however, must decide whether or not there is a *prima facie* case involving a breach of privilege, and in this regard, it is abundantly clear to the Chair that the events of March 18, 1993, as described, do amount to a *prima facie* case of breach of privilege.

Accordingly, the Chair invites the Honourable Member for West Vancouver-Garibaldi to proceed.

JOAN SAWICKI, *Speaker*

By leave, Mr. *Mitchell* withdrew the Motion tendered to the Chair by him in support of his submission on Friday last.

Mr. *Mitchell* then moved the following motion:

Be it resolved that while recognizing and affirming the undoubted rights of freedom to lawfully assemble, to lawfully demonstrate and to lawfully dissent, this House condemns the abuse of those rights and this House further declares and asserts that it is a contempt and high breach of its privileges to interfere in any manner with the proceedings of this Assembly whose right to take further action with respect to the interference with the proceedings occurring on March 18 last, is hereby reserved.

A debate arose.

Motion agreed to unanimously.

Order called for "Oral Questions by Members."

The House proceeded to "Orders of the Day."

Pursuant to Order, the House resumed the adjourned debate on the amendment to the Address in Reply to the Speech of His Honour the Lieutenant Governor at the opening of the Session.

The debate continued.

The amendment was negatived.

The debate was resumed on the main motion.

On the motion of the Hon. *M. Sihota*, the debate was adjourned to the next sitting of the House.

And then the House adjourned at 5.55 p.m.

The Speaker delivered her reserved opinion as follows:

Honourable Members:

On Thursday last the Honourable Member for Surrey-White Rock sought, pursuant to Standing Order 35, to move adjournment of the House to discuss a definite matter of urgent public importance. The matter raised by the Honourable Member was the alleged conflict of interest surrounding the decision of the government on Clayoquot Sound and the Government’s ownership of shares in MacMillan Bloedel. In support of his view of the urgency and public importance of the matter, the Honourable Member referred to a recent statement by Mr. Stephen Owen, the Commissioner on Resources and Environment and, in the Honourable Member’s words “the international outrage generated” by the decision in question. The Honourable Member further suggested on the issue of urgency, that there existed a possibility of the “CORE process” collapsing.

The Government House Leader made several submissions on the matter for consideration by the Chair, namely, that as the estimates of the Ministry of Forests were presently before Section A of the Committee of Supply, an opportunity already existed to raise the matter; that there are opportunities during Oral Question Period and through other procedures to raise the issue, and finally, that the statement put forward by the Honourable Member for Surrey-White Rock did not establish any urgency for debate.

I thank each of the Honourable Members for their submissions which the Chair has carefully considered. I have, as well, noted that during Oral Question Period on March 24th last (*see Hansard* page 4784) the Honourable Leader of the Official Opposition questioned the Honourable the Premier on the issue of the Government’s acquisition of additional MacMillan Bloedel shares at a time when the Government’s decision on logging in Clayoquot Sound was under consideration.

In Order for the Chair to determine that a matter qualifies under Standing Order 35 definite conditions must first be met. These pre-requisites are set forth in Sir Erskine May’s *Parliamentary Practice*, 17th edition, pages 364-369 and include the following which are particularly relevant in the present instance:

“The matter must be of recent occurrence and raised without delay.”

“If the matter is not raised at the earliest opportunity it fails in urgency.”

“The fact that new information has been received regarding a matter that has been continuing for some time, does not in itself make that matter one of urgency.”

“The application cannot succeed if another occasion for raising the matter is provided for under practice and the Standing Orders.”

“When an ordinary parliamentary opportunity will occur shortly or in time, the motion has been refused.”

For the Honourable Member’s application to succeed in the face of those pre-requisites, self-evident impediments exist by reason of the following facts:

- that approximately one month has elapsed since the issue of the alleged conflict was first raised in the House during Oral Question Period on March 24th last;
- that there existed on and after March 24th last an opportunity to raise the issue during the Throne Speech Debate;
- that the estimates of the Ministry of Forests are presently before the Committee of Supply (Section A) and consideration of the estimates of other ministries will occur in time; and
- that the emergence of new information, namely, the recent statement by the Commissioner on Resources and Environment, and the possibility of the “CORE process” collapsing, does not, according to the authority cited in Sir Erskine May, in itself make the matter, that has been continuing for some time, one of urgency.

Guided as the Chair must be by the authorities cited, I am of the opinion therefore, that the Honourable Member’s application must fail. In addition to the rules set forth in Sir Erskine May’s *Parliamentary Practice*, the Chair has been assisted by numerous identical rulings of previous Speakers to be found in the *Journals* of the House including the *Journals* 1988 (Second Session) page 127; 1987 (First Session) page 175; 1986 (Fourth Session) page 69.

TEN O’CLOCK A.M.

Prayers by Mr. Dalton.

The House proceeded to “Orders of the Day.”

Order for Committee of Supply called.

Pursuant to Sessional Order, order called for Section A of Committee of Supply to consider the estimates of the Minister of Forests.

Order called for resumption of debate on the amendment to the motion for second reading of Bill (No. 3) intituled *Build BC Act*.

Mr. *Dalton* rose on a point of order, namely, that the House is not empowered to resume the debate on second reading (the amendment) of Bill (No. 3) intituled *Build BC Act*, while Section A of the Committee of Supply was at the same time considering the estimates of the Minister of Forests.

Further submissions were made to the Chair on the point of order.

The Chair ruled that, upon the Government House Leader calling for estimates to be considered in Section A, and in the absence of an order for Committee of Supply in Section B being called, the remainder of the House remains intact and competent to consider such other business that may be properly put before it, in this instance debate on the amendment to the motion for second reading of Bill (No. 3).

The House resumed the adjourned debate on the amendment to the motion for second reading of Bill (No. 3) intituled *Build BC Act*.

The debate on the amendment continued.

On the motion of Ms. *Tyabji*, the debate on the amendment was adjourned to the next sitting of the House.

Mr. *Mitchell* rose on a point of order relating to management of Questions on Notice on the Order Paper.

The Hon. *G. Clark* made a submission.

The Speaker advised that it is up to the House to deal with management of the Order Paper.

The Speaker delivered her reserved opinion as follows:

Honourable Members:

Yesterday, at the afternoon sitting, the Honourable Member from Richmond East applied under Standing Order 35 to move adjournment of the House to discuss a definite matter of urgent and public importance.

The Honourable Member raised the matter of the Health Care Accord and the fact that the Health Labour Relations Association had rejected the Accord in a recent vote.

The Government House Leader submitted that the issue does not come within the scope of urgency as defined in the Standing Orders, and that the House would be moving immediately into the Ministry of Health estimates affording an early opportunity to discuss the matters raised by the Honourable Member for Richmond East.

Firstly, I wish to thank the Members for their submissions and to the Member for Richmond East for complying with Practice Recommendation #8 in giving the Speaker notice in writing before raising the matter in the House.

The pre-requisites for a motion under this Standing Order were outlined to this House in a decision given by the Chair yesterday at which time it was noted that an application under Standing Order 35 will fail when an ordinary parliamentary opportunity will occur shortly, or in time, to discuss the subject matter. As anticipated during submissions on this application, the Ministry of Health estimates were proceeded with during the same sitting in which the Standing Order 35 matter was raised, thereby providing an opportunity to discuss the matter in question.

Under these circumstances, the Honourable Member's application cannot succeed.

JOAN SAWICKI, *Speaker*

The House resumed the adjourned debate on the amendment to the motion for second reading of Bill (No. 3) intituled *Build BC Act*.

The Speaker delivered her reserved ruling as follows:

Honourable Members:

The Chair has now had the opportunity to examine the amendment moved by the Honourable Member for Saanich North and the Islands to the motion for second reading of Bill (No. 3) shortly before the House adjourned at 12:00 noon.

Sir Erskine May's 20th edition of *Parliamentary Practice* states at page 531:

"An amendment, urging the setting up of a select committee to consider the subject matter of a bill, might be moved and carried, if the House were averse from giving the bill itself a second reading and so conceding its principle."

The propriety of this type of amendment at the second reading stage of a bill is further conceded in Beauchesne's *Parliamentary Rules and Forms* at page 200.

This House has also accepted such amendments in the course of second reading debate on various bills.

The essence of this amendment is an expression of the House that it is, in the words of Sir Erskine May:

"averse from giving the bill itself a second reading and so conceding its principle."

The amendment submitted to the Chair by the Honourable Member from Saanich North and the Islands reads as follows:

"That all of the words after 'that' be deleted and followed by 'Bill 3 now be read a second time, but that the subject matter be referred to the Select Standing Committee on Finance, Crown Corporations and Government Services.'"

It seems to the Chair that the motion itself contains clearly contradictory principles, which may or may not have been intentional in that it requests on the one hand that the bill be now read a second time, and on the other hand that the subject matter of the bill be referred to a Committee.

Under these circumstances, the Chair has no choice but to rule this amendment, as presently worded, out of order.

JOAN SAWICKI, *Speaker*

The debate resumed on the main motion.

Mr. *Chisholm* moved the following amendment —

That all the words after "that" be deleted, and be followed by: "Bill 3 not now be read a second time, but that the subject matter be referred to the Select Standing Committee of Finance, Crown Corporations and Government Services."

The Speaker delivered his reserved opinion as follows:

Honourable Members:

Earlier today the Honourable Member for Okanagan West, pursuant to Standing Order 35, sought to move adjournment of the House to discuss a definite matter of urgent public importance. The matter raised by the Honourable Member was the disruption of students' education as a result of strikes and job action. In support of his view of the public importance and urgency of the matter, the Honourable Member referred to a statement last evening made by the Chairperson of the Vancouver School Board to the effect that the current strike by teachers would be ongoing for some time.

The Government House Leader made a submission to the Chair that while the matter raised was an urgent one, the Honourable Member for Okanagan West had not established the "urgency of debate" as required by the rules relating to Standing Order 35 applications.

As recently as April 26th last, the Chair made a ruling in relation to a Standing Order 35 application and referred in some detail to the authority of Sir Erskine May's *Parliamentary Practice* as well as previous rulings made in this House by other Speakers on the prerequisites for a successful application under Standing Order 35.

These essential prerequisites include the requirement that "the matter must be of recent occurrence and raised without delay". The authorities further note that "the fact that new information has been received regarding a matter that has been continuing for some time, does not in itself make the matter one of urgency" within the meaning of Standing Order 35.

It is common knowledge that a series of strikes by teachers has been ongoing for many weeks in different school districts within the Province. Further, a number of references have been made in this House to disruption in the education system by reason of disputes between teachers and school boards.

Clearly the matter raised is not of recent occurrence nor has the matter been raised under Standing Order 35 at the earliest opportunity and without delay.

Accordingly, in accordance with the rules relating to Standing Order 35 applications to which the Chair has referred, the Honourable Member's application must fail.

EMERY BARNES, *Deputy Speaker*

And then the House adjourned at 11.46 a.m.

Mr. *Gingell* made a statement.

Mr. *Serwa* made a statement.

The Deputy Speaker made a statement as follows:

Honourable Members:

In response to a point of order raised yesterday relating to the conduct of Question Period, I have examined *Hansard Blues* for Monday, Tuesday and Wednesday of this week.

This examination of *Hansard* discloses that several of the questions and many of the answers do not comply with the limitation expressed in Standing Order 47 A (b), which I will repeat for the guidance of all Members at this time:

“(b) questions and answers shall be brief and precise, and stated without argument or opinion.”

Question Period belongs to all Members of the House — it is not the exclusive property of the Opposition nor is it the exclusive property of the Government. If preambles to questions are inordinately long or contain provocative material embodying argument and opinion, it might be expected that answers to such questions would tend to be disorderly. If answers to questions are excessively long and likewise contain argument and opinion, dissatisfaction and calls for order will undoubtedly follow.

While a robust exchange is the hallmark of a good Question Period, if Members on all sides of the House are uncomfortable with the present status of Question Period, I would ask Members themselves to take the time to examine the *Hansard Blues* and measure the propriety of their questions and answers against Standing Order 47 A (b) which I have quoted.

Members will understand that while the Chair does not wish to continually intervene in Question Period, thereby interrupting the natural flow of questions and answers, it may be necessary to do so if dissatisfaction continues to be expressed.

Finally, all Honourable Members will realize that there are extensive rules in the parliamentary authorities limiting the scope of questions and answers during Question Period, and if these limitations were strictly enforced by the Chair, it seems that Question Period would be unduly restrictive.

The Chair will restate the most useful guideline which can be found in the parliamentary authorities:

“Questions and answers shall be brief and precise, and stated without argument or opinion.”

The Chair seeks the co-operation of all Members in this matter.

TEN O'CLOCK A.M.

Prayers by Mr. *Barnes*.

The Speaker delivered her reserved decision as follows:

Honourable Members:

On Thursday last, the Honourable Member for West Vancouver-Garibaldi rose on a matter of privilege, namely, that a ministerial statement by the Honourable the Premier made reference to a subject matter previously referred to, and currently under consideration by, a Select Standing Committee of the House and thereby committed a breach of privilege.

The Chair has examined the terms of reference to the Select Standing Committee on Economic Development, Science, Labour, Training and Technology which empower that Committee "to examine the implications for the economies of British Columbia and Canada of the North American Free Trade Agreement". The Chair has also closely examined the content and scope of the ministerial statement and has considered the various submissions on the matter raised.

An examination of authorities on parliamentary practice, namely Sir Erskine May, Beauchesne and others, has not disclosed any precedent or comment of direct assistance to the Chair in the consideration of the specific circumstances of the matter raised by the Honourable Member for West Vancouver-Garibaldi.

It is, of course, a breach of privilege to privately solicit members of a Committee when acting in a quasi-judicial capacity or to threaten members of a Committee in an attempt to influence them in the discharge of their duties. In addition, it is the acknowledged practice of this House to preclude any reference in detail to specific issues before a Committee, prior to the report of the Committee, or discussion of evidence being presented to a Committee, but to allow general references to a subject matter even although that matter may have been previously referred to a Select Standing or other Committee. The rationale of this practice is to avoid any direct intrusion into the functioning of Committees which might pre-empt the Committee's activities. The House itself, at the same time, does not totally preclude itself from alluding to a particular subject matter which it has referred to one of its Committees.

The Chair's examination of the scope and content of the ministerial statement in issue reveals that the core of the statement relates to concern about duties imposed by the United States on imported Canadian lumber and the dispute resolving mechanisms contained in the Free Trade Agreement with the United States, and the effect of the proposed North American Free Trade Agreement in relation to the subsidy side of the countervail issue. Reference was also made to the "government's opposition to NAFTA", and that statement appears to the Chair to go to the root of the Honourable Member's concern by reason of its linkage to the work of the Select Standing Committee on Economic Development, Science, Labour, Training and Technology. However, it is the recollection of the Chair that opposition to this agreement has been previously expressed by the government on several occasions in the House. Insofar as the ministerial statement makes reference to duties imposed by the United States on imported lumber, it must be common ground that opposition to that duty has been repeatedly expressed in the House and elsewhere. It is difficult therefore to see how a Committee's work could be impeded by an allusion to facts already known to the members of the Committee.

Furthermore, it seems to the Chair that the mandate of the Committee to examine the implications of a proposed agreement is one of very wide scope going beyond, and not necessarily governed by either approval of or opposition to, the North American Free Trade Agreement.

While appreciating the concern of the Honourable Member for West Vancouver-Garibaldi, the Chair is not persuaded, *prima facie*, that the ministerial statement which, in itself, is within the ambit of allowable ministerial statements, could correctly be construed, in light of the practices of this House, as breaching the established privileges of parliament.

TWO O'CLOCK P.M.

Prayers by Mr. *Symons*.

Order called for "Oral Questions by Members."

The Hon. *A. Edwards* (Minister of Energy, Mines and Petroleum Resources) tabled the Annual Report of the British Columbia Petroleum Corporation, 1992-1993.

By leave, Mr. *K. Jones* tabled a document entitled Information to Obtain a Search Warrant.

The Speaker delivered her reserved decision as follows:

Honourable Members:

On Tuesday last, the Honourable Member for West Vancouver-Garibaldi rose on a matter of privilege, relating to questions he had placed on the Order Paper and which had not, as yet, been answered.

Firstly, I wish to thank the Honourable Member for his courtesy in providing the Chair with notice in accordance with Practice Recommendation #7.

Secondly, the Chair wishes to comment briefly on the manner in which the matter of privilege was raised in the House. Our guidelines are stated at p. 36 of *Parliamentary Practice in British Columbia* and one of the essential elements required is "a brief written statement of the matter, which the Member reads to the House". This statement is intended to inform the House of the facts on which the matter is based, and in addition, any applicable authorities which may be of assistance to the Chair. In this instance, regrettably the Chair could not allow the completion of the statement in that several parts of the statement imported argument and conclusions. The Chair, however, has had the full text of the Honourable Member's statement and has considered all the relevant submissions therein.

In his statement, the Honourable Member makes the following submission: "...the Government's refusal to answer written questions on the notice paper impedes my ability as a Member of this Assembly from doing the job that my constituents sent me here for." As this appears to be the essence of the matter, I refer Honourable Members to the decision of a former Speaker of this House recorded in the *Journals* (J 1932) pp. 22 to 29, wherein it was ruled, and I quote, "a refusal to answer (a question) cannot be raised as a question of privilege, nor is it regular to comment upon such refusal".

While the Honourable Member may feel he has a grievance, the ruling to which I have referred clearly precludes the Chair from finding that a *prima facie* case of breach of privilege has been established.

JOAN SAWICKI, *Speaker*
